Sample terms & service standards

Planning estimate assumes one event, one site, and one revision round. Written scope, actual quote, approved budget, and signed terms would be required in a real transaction. Venue capacity, permits, insurance, catering, AV, accessibility, and safety arrangements must be verified separately. Sample service objective: acknowledge planning queries within one business day; provide a draft run-of-show at least five business days before the event when inputs arrive on time. No guarantee of availability or outcome.

Actual suitability and legal requirements must be assessed for each event.

Sample responsible celebration standards

Attendance and alcohol participation are voluntary. Any alcohol service in a real event requires prior approval, lawful licensing, controlled service, food and non-alcoholic alternatives, and a safe-transport plan. Entertainment must be inclusive and suitable. Large events require written capacity, crowd, emergency, accessibility, and first-aid confirmation from the actual venue and competent providers.
